

# SIF Only News

April 2007

Volume 2; Issue 4

The long awaited release of the SIF Change Events trigger that was initially planned for release in April has been delayed until late May.

This functionality of this is significant because any changes to “EIMS” data elements (see element list on this page) will be automatically up-

## SIF Change Events Release Delayed

dated in EIMS via SIF. This includes corrections, changes, and updates to demographic information. Keeping the SIS and EIMS in sync will improve accuracy and timeliness of the data. It will be worth the wait.

## Check Out the SIF Installation Map

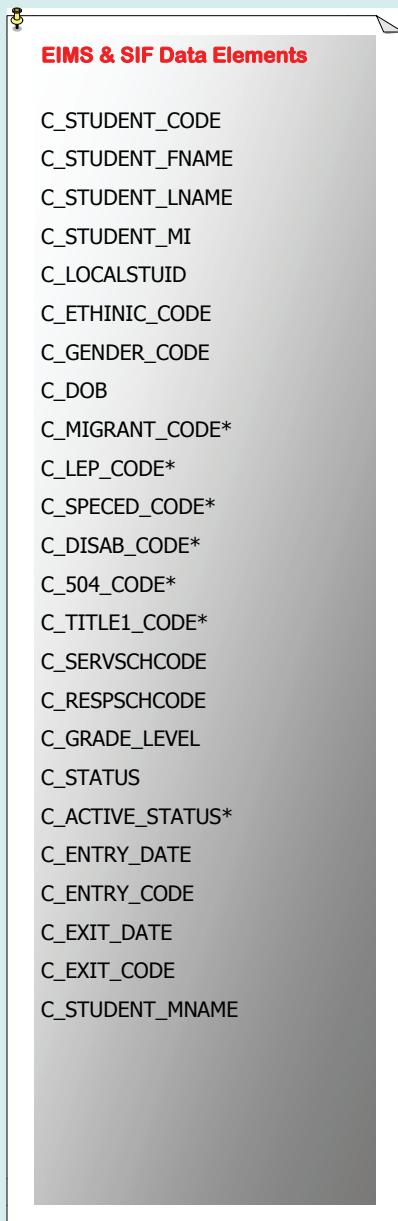

On page 2 is an updated map of all the divisions using the Vertical Implementation of SIF, or have committed to installing SIF by the end of this contract in June. In a future update, I will include all the division who are using other Horizontal SIF agents with a different color. You will be surprised to see what your neighbors are doing!

## StarStudent Agent Update

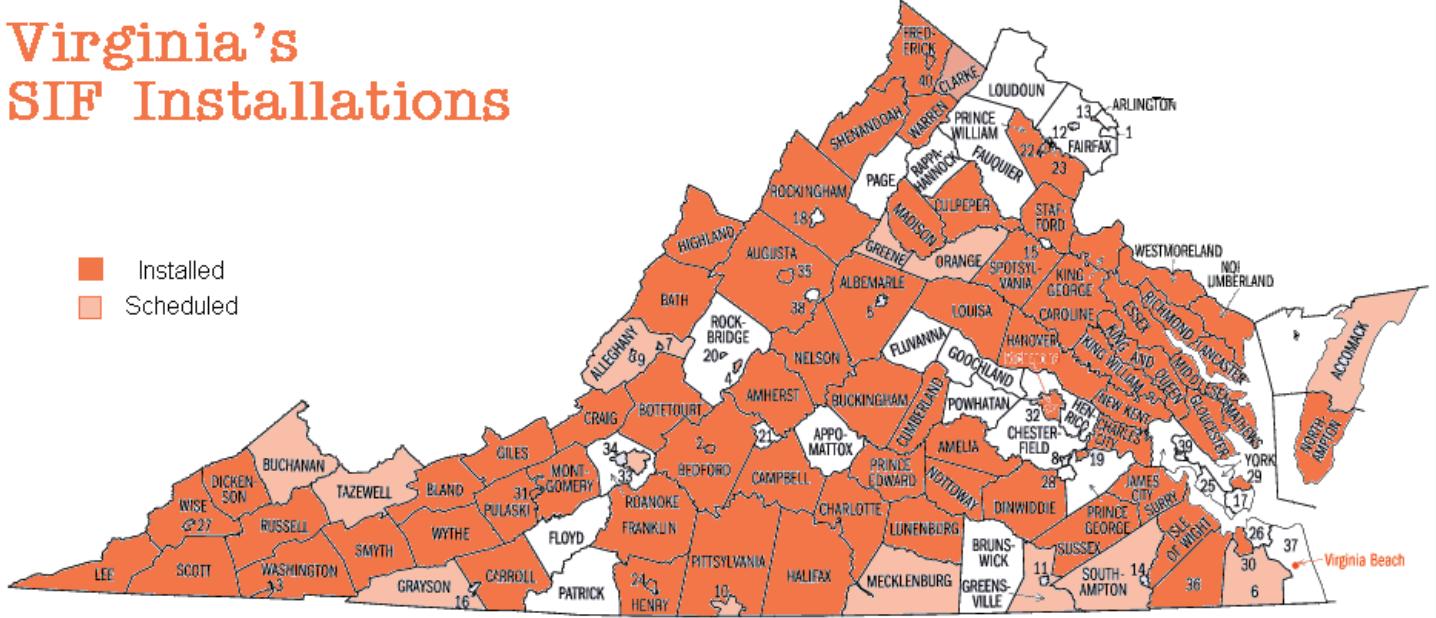

Edustructures has just received the StarStudent SIF agent and has tested and installed it on their test environment. Mecklenburg is scheduled to install the agent on May 1st They will be followed up by Chesapeake and Danville.

Other divisions that use StarStudent may request to be included in the rollout of the StarStudent agent by emailing at:

Peter.Coleman@doe.virginia.gov

## Virginia's SIF Installations

98 division installations and nearly 600,000 student being processed by SIF

37 divisions are using additional SIF agents to move data between applications

## SIF Support from Edustructures

Divisions can log cases on line using their account login, or send an email to [Support@Edustructures](mailto:Support@Edustructures). If any one needs a login created I can send out invites to our Customer portal. Comments and questions can be logged online within the case. **This notifies the engineer immediately.**

Lastly, our Toll-free number 877-790-1261 Option 2 can be used to reach support.

All options should have a response within 1 business day. If anyone feels that they need to find out their status they can call Rodger Pond directly 801-858-0079.
